## **School-Student-Parent Compact**

### **2020-21 School Year**

During this unprecedented school year, it is critical that families, caregivers, students and school work together to help students accelerate their academic learning and meet their social, emotional and behavioral needs. Following is a list of ideas compiled by representatives in our school community to support this goal.

#### **As the Principal, I will:**

- Ensure safety and wellness for all students, staff and community
- Cultivate connection and relationships
- Center equity
- Respond to the needs of the community
- Communicate regularly with parents, students and staff members with transparency
- Listen to all and provide guidance when possible

#### **As Staff Members, we will:**

- Provide safety and promote wellness for all students during comprehensive distance learning
- Build relationships with students so they feel connected and included.
- Center our work grounded with equitable practices, curriculum and instruction
- Use innovative practices to engage all students with comprehensive distance learning
- Listen to students and families and provide support
- Seek assistance within the school community to problem solve
- Communicate regularly with parents through phone calls, email, or digital platforms

#### **As students, we will:**

- Use technology responsibly and safely
- Attend and participate in both synchronous and asynchronous learning opportunities
- Come prepared to class with required learning materials
- Read as much as possible
- Talk to adults about our learning and social experience
- Ask for help when we need it

#### **As parent/guardian or family member, I will:**

- Provide a quiet space for my child to attend and engage in comprehensive distance learning when possible
- Support my child's learning during comprehensive distance learning
- Encourage and/or listen to my child read
- Communicate with the teacher and school through calls, email or digital platforms
- Attend meetings and family events virtually and in-person when it becomes safe to do so
